## EXPERIENCE

### Full-Stack Web Developer

Web Savvys LLC   08/2017 - ongoing   Cupertino, CA

Web Savvys is a full service startup focused on delivering complete web solutions to small businesses.

- Developed 50+ responsive and accessible web pages using HTML, CSS and JavaScript.
- Implemented modern front end build system for 4+ web apps, using Gulp, Node.JS, and React.JS.
- Increased productivity of the team by 30%, using Sass for CSS preprocessing, Git for version control, and Yarn for dependency management.
- Saved 100+ hours of debugging time for a team of 10 front end engineers, by implementing React components and Redux state management in the application development stack.

### Web Developer

NVIDIA   04/2017 - 08/2017   San Jose, CA

- Created scripts in Python to update firmware for 40 machines.
- Created IT provisioning web application for 20+ technicians, using HTML, CSS, and jQuery.
- Coordinated and planned IT provisioning and logistics.
- Maintained accountability and tracked of all IT equipment in circulation, reducing device loss by 10%.

### Front End Developer

Techmate   12/2016 - 04/2017   San Francisco, CA

Techmate is a San Francisco based firm providing personalized online tech help services.

- Designed and developed 20+ responsive, scalable, cross-browser websites using HTML, CSS, JavaScript, and various JavaScript libraries.
- Collaborated with music producers, medical professionals, and startups to develop websites, and improved user experience, increasing user engagement by 60%.

### Front End Developer

Chartwell Staffing Solutions   05/2016 - 11/2016   San Jose, CA

- Created responsive web pages using HTML, CSS and JavaScript for several high profile clients including NVIDIA, SAP, NetApp and HP.
- Implemented Twitter Bootstrap to bring efficiency and consistency for page rollouts.
- Created DOM manipulation modules using vanilla JS for repeated user experience tasks.
